

please consider the fact that I'm a truck driver listening to xm radio for instant weather and news updates, also traffic updates are of the utmost importance to me. This is a necessary piece of equipment for me to do my job well and in a timely manner. Taking away these instant updates would be a hindrance to all listeners, especially truck drivers, such as myself. I would urge you to keep the weather and traffic updates on xm radio as a service to all who pay for exactly these services.
